Journal of Visual Impairment & Blindness
VOLUME 106, 2012

INDEX
SUBJECTS and NAMES

ACCESSIBILITY
Ability or Access-ability: Differential Item Functioning of Items on Alternate Performance-Based Assessment Tests for Students with Visual Impairments—June 325–338
An Alternative Option to Dedicated Braille Notetakers for People with Visual Impairments: Universal Technology for Better Access—October-November 650–655
Barriers to Low Vision Rehabilitation: A Qualitative Approach—May 261–274
Comparison of Levels of Satisfaction with Distance Education and On-campus Programs—May 275–286
Editor's Page—January 3, March 131
The Effect of "Read-Aloud" as a Test Accommodation for Students with Visual Impairments in South Korea—June 356–361
A Free Program for Using and Teaching an Accessible Electronic Wayfinding Device—October-November 703–705
Guest Editors' Page—October-November 579–580
Internet Use by Transition-Aged Youths with Visual Impairments in the United States: Assessing the Impact of Postsecondary Predictors—October-November 597–608
An Interview with Technology Guru George Kerscher—October-November 581–583
Preferences and Practices Among Students Who Read Braille and Use Assistive Technology—October-November 585–596
The Relationship Between Computer and Internet Use and Performance on Standardized Tests by Secondary School Students with Visual Impairments—October-November 609–621
Teaching the Benefits of Smart Phone Technology to Blind Consumers: Exploring the Potential of the iPhone—October-November 646–650
Telephone Accessibility for Individuals with Dual Sensory Impairments: A Case Study—January 43–46
Videophone Technology and Students with Deaf-Blindness: A Method for Increasing Access and Communication—October-November 622–633

ACCOMMODATIONS
The Effect of "Read-Aloud" as a Test Accommodation for Students with Visual Impairments in South Korea—June 356–361
Preferences and Practices Among Students Who Read Braille and Use Assistive Technology—October-November 585–596
The Relationship Between Computer and Internet Use and Performance on Standardized Tests by Secondary School Students with Visual Impairments—October-November 609–621

ADAPTIVE TECHNOLOGY
An Alternative Option to Dedicated Braille Notetakers for People with Visual Impairments: Universal Technology for Better Access—October-November 650–655
A Free Program for Using and Teaching an Accessible Electronic Wayfinding Device—October-November 703–705
How a Braille Contest Serendipitously Accelerated the Use of Digital Audio Players—October-November 699–703
Special Issue on Technology—October-November 577–712
Technology in Practice: New Paths to Efficiency—October-November 694–695

ADOLESCENTS
Characteristics of Early Work Experiences and Their Association with Future Employment—March 133–144
Editor's Page—March 131
Videophone Technology and Students with Deaf-Blindness: A Method for Increasing Access and Communication—October-November 622–633

AGE-RELATED MACULAR DEGENERATION
Eccentric Viewing Training and Its Effect on the Reading Rates of Individuals with Absolute Central Scotomas: A Meta-analysis—September 527–542
Is My World Getting Smaller? The Challenges of Living with Vision Loss—January 5–16
A Simplified Method of Identifying the Trained Retinal Locus for Training in Eccentric Viewing—September 555–561

AGING
Editor's Page—January 3
An Interview with Technology Guru George Kerscher—October-November 581–583
Is My World Getting Smaller? The Challenges of Living with Vision Loss—January 5–16
Preferred Retinal Loci Relationship to Macular Scotomas: A 10-Year Comparison—December 745–750

AJUWON, PAUL M.
Assistive Technology Competencies for Teachers of Students with Visual Impairments: A National Study—October-November 656–665

AMATO, SHEILA
Synthesis of Available Accommodations for Students with Visual Impairments on Standardized Assessments—May 299–304

AROUND THE WORLD
A Comparison of the Oral Health Status of Children Who Are Blind and Children Who Are Sighted in Istanbul—June 362–367

©2012 AFB, All Rights Reserved

Orientation and Mobility Services for Persons with Visual Impairments: South African Orientation and Mobility Practitioners' Eye View—December 750–754

ART FOR AND BY THE BLIND
Editor's Page—July 387
Identifying Raised-Line Drawings by Touch: A Hard but Not Impossible Task—July 427–431

ASSESSMENT
Ability or Access-ability: Differential Item Functioning of Items on Alternate Performance-Based Assessment Tests for Students with Visual Impairments—June 325–338
Assessment and Instruction of Object Permanence in Children with Blindness and Multiple Disabilities—December 717–727
Assistive Technology Competencies for Teachers of Students with Visual Impairments: A National Study—October-November 656–665
Comprehensive Adult Student Assessment Systems Braille Reading Assessment: An Exploratory Study—August 488–499
Editor's Page—January 3, August 451
The Effect of "Read-Aloud" as a Test Accommodation for Students with Visual Impairments in South Korea—June 356–361
Internet Use by Transition-Aged Youths with Visual Impairments in the United States: Assessing the Impact of Postsecondary Predictors—October-November 597–608
Performance Measurement and Accommodation: Students with Visual Impairments on Pennsylvania's Alternate Assessment—January 17–30
Synthesis of Available Accommodations for Students with Visual Impairments on Standardized Assessments—May 299–304
Transition to Employment for Students with Visual Impairments: Components for Success—July 389–399

ASSISTIVE TECHNOLOGY
An Alternative Option to Dedicated Braille Notetakers for People with Visual Impairments: Universal Technology for Better Access—October-November 650–655
Assistive Technology Competencies for Teachers of Students with Visual Impairments: A National Study—October-November 656–665
A Free Program for Using and Teaching an Accessible Electronic Wayfinding Device—October-November 703–705
Career Counseling for People with Disabilities: A Practical Guide to Finding Employment, Second Edition, by Wolffe. Reviewed by James A. Leja—December 756–757
How a Braille Contest Serendipitously Accelerated the Use of Digital Audio Players—October-November 699–703
Internet Use by Transition-Aged Youths with Visual Impairments in the United States: Assessing the Impact of Postsecondary Predictors—October-November 597–608
Perceptions of Teachers of Students with Visual Impairments Regarding Assistive Technology: A Follow-up Study to a University Course—October-November 666–678
Preferences and Practices Among Students Who Read Braille and Use Assistive Technology—October-November 585–596
The Relationship Between Computer and Internet Use and Performance on Standardized Tests by Secondary School Students with Visual Impairments—October-November 609–621
Special Issue on Technology—October-November 577–712
Teaching the Benefits of Smart Phone Technology to Blind Consumers: Exploring the Potential of the iPhone—October-November 646–650
Technology for Early Braille Literacy: Comparison of Traditional Braille Instruction and Instruction with an Electronic Notetaker—October-November 679–693
Technology in Practice: New Paths to Efficiency—October-November 694–695

ASSOCIATION FOR EDUCATION AND REHABILITATION OF THE BLIND AND VISUALLY IMPAIRED
Editor's Page—August 451

AUDIO DESCRIPTION
Editor's Page—March 131
LiveDescribe: Can Amateur Describers Create High-Quality Audio Description?—March 154–165

AUGESTAD, LIV BERIT
An Examination of 40 Years of Mathematics Education Among Norwegian Braille-Reading Students—February 93–105

AUSTRALIA
The Changing Role and Practice of Teaches of Students with Visual Impairments: Practitioners' Views from Australia—February 81–92
Editor's Page—February 67

AUTISM
Editor's Page—February 67
Increasing Communication Skills: A Case Study of a Man with Autism Spectrum Disorder and Vision Loss—February 120–125

AYAN, CARLOS
Are Male Judokas with Visual Impairments Training Properly? Findings from an Observational Study—April 224–234

BAK, SUNHI
Personality Characteristics of South Korean Students with Visual Impairments Using the Myers-Briggs Type Indicator—May 287–297

BANDA, DEVENDER R.
The Relationship Between Computer and Internet Use and Performance on Standardized Tests by Secondary School Students with Visual Impairments—October-November 609–621

BARBER, PAUL
Telephone Accessibility for Individuals with Dual Sensory Impairments: A Case Study—January 43–46

BEAMISH, WENDI
The Changing Role and Practice of Teaches of Students with Visual Impairments: Practitioners' Views from Australia—February 81–92

BERGER, SUE
Is My World Getting Smaller? The Challenges of Living with Vision Loss—January 5–16

 ©2012 AFB, All Rights Reserved

BERNAS-PIERCE, JULIE
Reach Out and Teach: Helping Your Child Who Is Visually Impaired Learn and Grow, by Ferrell & Spungin (Consulting Ed.). Reviewed by Julie Bernas-Pierce—April 241–242, 244

BICARD, DAVID F.
Increasing Communication Skills: A Case Study of a Man with Autism Spectrum Disorder and Vision Loss—February 120–125

BICARD, SARA E.
Increasing Communication Skills: A Case Study of a Man with Autism Spectrum Disorder and Vision Loss—February 120–125

BICKFORD, JAMES O.
Technology for Early Braille Literacy: Comparison of Traditional Braille Instruction and Instruction with an Electronic Notetaker—October-November 679–693

BISHOP, JOHN
Videophone Technology and Students with Deaf-Blindness: A Method for Increasing Access and Communication—October-November 622–633

BLISS, JAMES C.
Death—March 188, 190

BOOK REVIEWS
Blind Vision: The Neuroscience of Visual Impairment, by Cattaneo & Vecchi. Reviewed by John J. Rieser and David A. Guth—July 433–434, 436, 438, 440
Borderlands of Blindness, by Omansky. Reviewed by Sharon Zell Sacks—January 47–48
Career Counseling for People with Disabilities: A Practical Guide to Finding Employment, Second Edition, by Wolffe. Reviewed by James A. Leja—December 756–757
Editor's Page—January 3, July 387
Learning to Listen/Listening to Learn: Teaching Listening Skills to Students with Visual Impairments, by Barclay (Ed.). Reviewed by Anna M. Swenson—March 185–187
Reach Out and Teach: Helping Your Child Who Is Visually Impaired Learn and Grow, by Ferrell & Spungin (Consulting Ed.). Reviewed by Julie Bernas-Pierce—April 241–242, 244

BOOKS AND READING
Guest Editors' Page—October-November 579–580
An Interview with Technology Guru George Kerscher—October-November 581–583
Preferences and Practices Among Students Who Read Braille and Use Assistive Technology—October-November 585–596
The Role and Characteristics of Tactile Graphics in Secondary Mathematics and Science Textbooks in Braille—September 543–554

BOULE, JACINTHE
Reading Speed of Contracted French Braille—January 37–42

BOWMAN, RICHARD
My Voice Heard: The Journey of a Young Man with a Cerebral Visual Impairment—March 166–176

BRAILLE
Assistive Technology Competencies for Teachers of Students with Visual Impairments: A National Study—October-November 656–665
Comprehensive Adult Student Assessment Systems Braille Reading Assessment: An Exploratory Study—August 488–499
Conceptual Understanding of shape and Space by Braille-Reading Norwegian Students in Elementary School—August 453–465
The Development of Accepted Performance Items to Demonstrate Competence in Literary Braille—April 197–211
Editor's Page—January 3, February 67, April 195, August 451
The Effect of "Read-Aloud" as a Test Accommodation for Students with Visual Impairments in South Korea—June 356–361
An Examination of 40 Years of Mathematics Education Among Norwegian Braille-Reading Students—February 93–105
Guest Editors' Page—October-November 579–580
How a Braille Contest Serendipitously Accelerated the Use of Digital Audio Players—October-November 699–703
Instruction in Specialized Braille Codes, Abacus, and Tactile Graphics at Universities in the United States and Canada—June 339–350
Parents' Perspectives on Braille Literacy: Results from the ABC Braille Study—April 212–223
Preferences and Practices Among Students Who Read Braille and Use Assistive Technology—October-November 585–596
Putting it Together: Musical Theater and Literacy for Children with Visual Impairments—June 370, 372, 374, 376, 378
Reading Speed of Contracted French Braille—January 37–42
The Relationship Between Computer and Internet Use and Performance on Standardized Tests by Secondary School Students with Visual Impairments—October-November 609–621
The Role and Characteristics of Tactile Graphics in Secondary Mathematics and Science Textbooks in Braille—September 543–554
A Survey of the Current Status of Visually Impaired Students in Secondary Mathematics, by Rapp & Rapp, February 1992. *JVIB*. Recommended by Derrick Smith—July 440, 442–443
Synthesis of Available Accommodations for Students with Visual Impairments on Standardized Assessments—May 299–304
Technology for Early Braille Literacy: Comparison of Traditional Braille Instruction and Instruction with an Electronic Notetaker—October-November 679–693
Technology in Practice: New Paths to Efficiency—October-November 694–695
The Use of Spatialized Speech in Auditory Interfaces for Computer Users Who Are Visually Impaired—October-November 634–645

BRAILLE DEVICES
An Alternative Option to Dedicated Braille Notetakers for People with Visual Impairments: Universal Technology for Better Access—October-November 650–655
How a Braille Contest Serendipitously Accelerated the

Use of Digital Audio Players—October-November 699–703
Technology for Early Braille Literacy: Comparison of Traditional Braille Instruction and Instruction with an Electronic Notetaker—October-November 679–693

BRANJE, CARMEN J.
LiveDescribe: Can Amateur Describers Create High-Quality Audio Description?—March 154–165

BROWN, JANE EMILY
The Changing Role and Practice of Teaches of Students with Visual Impairments: Practitioners' Views from Australia—February 81–92

BRUCE, SUSAN M.
Assessment and Instruction of Object Permanence in Children with Blindness and Multiple Disabilities—December 717–727

CANADA
Experiences of Students with Visual Impairments in Canadian Higher Education—July 414–425
Reading Speed of Contracted French Braille—January 37–42

CANCELA, JOSE M.
Are Male Judokas with Visual Impairments Training Properly? Findings from an Observational Study—April 224–234

CAREER COUNSELING
Career Counseling for People with Disabilities: A Practical Guide to Finding Employment, Second Edition, by Wolffe. Reviewed by James A. Leja—December 756–757

CASEY, LAURA BAYLOT
Increasing Communication Skills: A Case Study of a Man with Autism Spectrum Disorder and Vision Loss—February 120–125

CATARACTS
Is My World Getting Smaller? The Challenges of Living with Vision Loss—January 5–16

CAVENAUGH, BRENDA S.
A Systematic Review of Transition Interventions of Youths with Visual Impairments—July 400–413
Transition-Age Youths with Visual Impairments in Vocational Rehabilitation: A New Look at Competitive Outcomes and Services—August 475–487

CEA, CLAYTON R.
Increasing Communication Skills: A Case Study of a Man with Autism Spectrum Disorder and Vision Loss—February 120–125

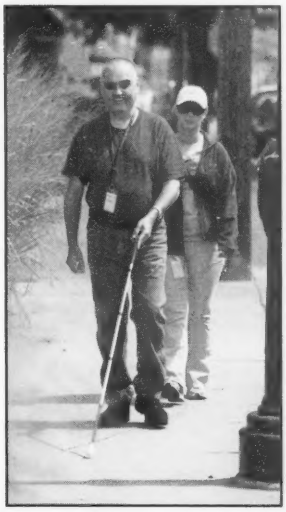
LEADER DOGS FOR THE BLIND
ACCELERATED MOBILITY PROGRAM (AMP)

LET US HELP YOU HELP YOUR CLIENTS

For over 15 years Leader Dogs for the Blind has provided O&M training in a unique, condensed seven-day program at our facility in Michigan.

Our Accelerated Mobility Program (AMP) is not intended to replace traditional O&M training—it is a supplement to the training an individual has or is receiving at home.

Our goal is for the client to leave a safer and more independent traveler.



AMP is available to everyone who is blind or visually impaired regardless of whether they ever plan to use a guide dog.

Some of the many reasons O&M Specialists have suggested AMP to their clients include:

- To jump-start their cane travel training and quickly build a strong O&M foundation
- To boost their travel skills to the next level
- Because the client lives outside the agency service area
- Because they have reached a milestone (such as age, ability or end of service provision) that makes them ineligible for additional services
- To prepare to receive a Leader Dog

Just like our guide dog program, our AMP training is provided completely free of charge including air travel.

Additional information is available on our website at leaderdog.org/programs or contact us at 888/777.5332 to talk directly with one of our client service representatives.
